

Every individual
has the capacity
for brilliance

Sheridan Worldwide

Sheridan's brand ethos

Brilliance Realised

At Sheridan, we operate on one simple, positive assumption:

Every individual has the capacity for brilliance.

Sheridan's mission is to provide a tailored approach to each challenge which taps into the huge potential that is within people and organisations to realise their brilliance and maximise business potential globally.

The hummingbird is the only bird in the world that can fly backwards and hover, so has the ability to assess a situation or issue from all angles before deciding the best approach. We too take into account different perspectives, giving both us and our clients time to think and space to grow. We also are unique, active and agile, and like the hummingbird, we won't take on challenges to which we are not best suited. Other birds have other skills, but the hummingbird symbolises ours.
